

TECHNOHULL GTX

PURE **EXPERIENCE**

CRUISE IN **STYLE**

TECHNOHULL GTX

ENGINE: 2*300 HP YAMAHA

LENGTH: 11 M

CRUISING SPEED: 35 KN

CAPACITY: 9 PAX + SKIPPER

BUILD: 2025

The Technohull GTX redefines the concept of day cruising, introducing a new dimension of performance, space, and elegance in the 10+ meter category.

This exceptional model seamlessly blends Technohull's iconic silhouette with a refined aesthetic and an advanced hull design, engineered to deliver both outstanding performance and remarkable comfort.

With a generous deck layout designed for ease of movement and socializing, the GTX offers an expansive onboard experience, perfect for both relaxing moments under the sun and high-speed offshore adventures.

Its innovative stepped hull ensures superb handling and efficiency, allowing the GTX to glide effortlessly through various sea conditions while maintaining stability and thrill.

Far exceeding expectations for a boat of her class, the Technohull GTX is a true statement of power, style, and next-level cruising — built for those who demand more from the sea.
